DeVeer, Donald Van and Christine Pierce (2002) *The Environmental Ethics and Policy Book: Philosophy, Ecology, Economics*, Wadsworth Publishing; 3rd edition.

Review: "The volume's three main strengths are (1) good selection of articles, (2) comprehensive range of topics, and (3) good organization."

"This text is among two or three of the best in this area...The editors are well-respected scholars who obviously have put a great deal of thought and work into this project."

Product Description: Consisting of an assortment of landmark essays and the best in contemporary scholarship, this anthology delves deeply into the most pressing environmental issues of our times. Articles included in this anthology are distinguished for their relevance to real-life policy making and for their ability to promote rich and lively discussion about controversial matters. In addition, the editors' careful organization of the topics and illuminating section previews keep students focused on the most essential points of current environmental debates.
